**Fragrances**

**Beautiful**

Refreshing and light, sun-kissed apple and soft florals make up this invigorating scent

**Cactus Flower**

This fragrance isn't a typical floral. It's a green mix of lemon, bergamot, winter berry, flowering succulent, violet, white musk, and vetiver.

**Black Raspberry Vanilla**

It's a sweet mix of bergamot, pear, plum wine, vanilla, orchid, cashmere, and musk.

**Cranberry Pomegranate**

You'll love this fruity fragrance in handmade soap and lotion. The notes are grapefruit, lime, orange, cranberry, cinnamon, jasmine, leafy greens, raspberry, musk, and vanilla.

**Cucumber Waters**

It's a fresh mix of rose, water lily, jasmine, musk, cypress, and moss, as well as these essential oils - cucumber seed, lemon, orange, and geranium.

**Green Tea and Cucumber**

The mix of freshly-steeped green tea and crisp cucumber in this scent is hard to beat..

**Lemon Sugar**

Like sugared fruit candy, this scent has the fresh, bright qualities of lemon while adding to the sweetness with a sugary, sharp note.

**Mountain Rain**

Fresh, clean rain with undertones of mossy wood and sweet middle notes of lavender and rose.

**Marigold Melon**

A gorgeous fragrance with light fruits, like melon and citrus, complemented by airy florals. A soft base of amber and coconut maintain that sweetness and add warmth. It's sweet without being sugary. Imagine picking out your own sun warmed melon from a green farm field
